

eSight

See new possibilities

Empower your employees with low vision with eSight Workplace

eSight Workplace combines leading-edge assistive technology with a full-service program that makes it easy for your visually impaired employees to work productively on-site, at home, or on the go.

Create a workplace inclusive of people with low vision and legal blindness

Reduce costs with an all-in-one wearable that lets your employee see near or far

Count on eSight for remote deployment, training, and device support

"I have 20/200 vision. If I have eSight on distance mode, I can reach up to 20/20 vision. I go from being legally blind to having perfect vision. I've been using eSight since the summer of 2015 when I worked as a journalism intern. I had just purchased eSight and put it to the test immediately. I used it 8 hours a day, every day to read, write and edit."

Meagan Gillmore, eSight user since 2015, 32 years old, retinopathy of prematurity

See new possibilities

Leading-edge low vision assistive technology

- An all-in-one wearable device that stimulates the wearer's functional vision so they can see near or far in stunning clarity
- A mobile solution, your employees can use eSight on-site or remotely, whether working at a computer or moving between tasks
- Delivers immediate enhanced vision and easy to use contrast, focus, brightness, and 24X zoom controls
- Brings all of your organization's technology -- including native applications -- into the employee's eSight screen they can see and control

A full-service program for your low vision employees

- Starts with a no-risk evaluation in the comfort of your employee's home
- Fully COVID-19 compliant remote device deployment
- Includes 1:1 personalized online support and training from eSight Coaches
- Backed by a comprehensive device warranty, maintenance, and support program

Clinically-validated

In studies by six leading eye research institutions, eSight demonstrated a 7-line gain on the doctor's eye chart and a 12-letter contrast gain.

Loved by wearers

Wearers have over 20 eye conditions. With eSight, they excel at work & do all the things sighted people take for granted.

A game-changer

Change the lives of your employees living with low vision. Give them the opportunity to take their careers to the next level.
