Best-in-class coverage for your best-in-class device

Extended Warranty

eSight was designed for everyday use and we want to ensure that your device is always in working form. In support of this, we offer extended protection against defects and workmanship issues, providing the utmost peace of mind along the way. We also cover shipping if we ever needed a closer look at your device, or had to replace it.

Incident Protection

Life happens, but that doesn't mean your access to enhanced vision should be jeopardized. That is why we offer protection against one (1) incident where eSight is either accidentally damaged, or stolen, or no longer enhances vision in the event of further vision loss. Terms and conditions apply, including a service fee of \$199.

Additional Coaching

Our one-of-a-kind coaching program is beloved by our community of users, and a cornerstone of the eSight experience. As expert eSight users themselves, our coaches ensure that you are always making the most of your technology by tailoring carefully planned lessons to your learning needs. Your coach will be your biggest supporter.
